

Mendel Day 2018

In addition to honoring Mendel, this year's event will celebrate the leadership of the Genetics Graduate Interdisciplinary Program. We will commend the work of Melanie Culver and prepare for incoming director Nathan Ellis with a group discussion of a central issue in genetics: what makes you a geneticist? Does anyone who works with DNA qualify, or are there specific 'character traits' that make a geneticist?

Thursday, March 8

Room 3978

University of Arizona Cancer Center

3:30 PM: Refreshments

4:00 – 5:00 PM: What makes you a geneticist?
Redefining the Genetics GDP
